

Session Program

12-16 Jun 2017

**XII Workshop on Particle Correlations and
Femtoscscopy**

***Chiral magnetic effect and wave, chiral
vortical effect***

Other Institutes

Nikhef Science Park 105 1098XG Amsterdam The Netherlands

Wednesday 14 June

09:00

Chiral magnetic effect and wave, chiral vortical effect: Morning (1)

Session | **Location:** Other Institutes, Nikhef Science Park 105 1098XG Amsterdam The Netherlands |

Conveners: Sergey Voloshin, Jinfeng Liao

09:00–09:25

Global polarization of Lambda hyperons in Au+Au Collisions at RHIC BES

Speaker

Isaac Upsal

09:25–09:50

Study of Lambda polarization at RHIC BES energies and beyond

Speaker

Dr Iurii Karpenko

09:50–10:15

Electromagnetic fields in p+Pb collisions

Speaker

Sandeep Chatterjee

10:15–10:35

The search for magnetic-induced charged currents in Pb-Pb collisions with ALICE

Speaker

Jacopo Margutti

10:35

11:05

Chiral magnetic effect and wave, chiral vortical effect: Morning (2)

Session | **Location:** Other Institutes, Nikhef Science Park 105 1098XG Amsterdam The Netherlands |

Conveners: Sergey Voloshin, Jinfeng Liao

11:05–11:35

Anomalous hydrodynamic modeling of anomalous chiral transport in heavy ion collisions

Speaker

Dr Yin Jiang

11:35–12:00

Chiral magnetic effect and wave studies with CMS

Speaker

Sang Eon Park

12:00–12:30

Magnetic field in heavy-ion collisions: case for isobaric collisions

Speaker

Vladimir Skokov

12:30
