

# XII Workshop on Particle Correlations and Femtoscopy

## Thursday, June 15, 2017

### Resonance decays at low, intermediate and at RHIC and LHC: Morning (1) (9:00 AM - 10:35 AM)

time	[id] title	presenter
9:00 AM	[44] Measurement of the production of hadronic resonances in Pb-Pb collisions with ALICE	KHUNTIA, Arvind SAHOO, Raghunath
9:20 AM	[46] Resonance production in small systems with ALICE	FRAGIACOMO, Enrico
9:45 AM	[55] Measurement of quarkonia production in heavy-ion collisions with the ATLAS detector	TAPIA ARAYA, Sebastian
10:10 AM	[56] Quarkonia in pp, pPb and PbPb collisions with CMS	CHAPON, Emilien

### Resonance decays at low, intermediate and at RHIC and LHC: Morning (2) (11:05 AM - 12:30 PM)

time	[id] title	presenter
11:05 AM	[59] Exploring excited States of Nuclei Through Alpha-particle Decay Correlations	Dr FREER, Martin
11:35 AM	[58] $\phi$ Meson Measurements at Forward/Backward Rapidity at RHIC with PHENIX Detector	Prof. HE, Xiaochun
12:00 PM	[53] Non-identical particle correlation analysis in the presence of non-femtoscopic correlations	KISIEL, Adam
