

NuFact Workshops every-other year?

Alan Bross and Jorge G. Morfin

- ◆ This is an important topic that should be discussed at the SPC meeting in Vietnam.
 - ▼ Only a few points to introduce the topic here.
- ◆ The focus of NuFact has changed with neutrino beams from muons now being actively studied by a few small groups
- ◆ There are now MANY more neutrino-oriented conferences covering most of the NuFact topics.
- ◆ Travel funds for many institutions are shrinking so harder choices between the many conferences/workshops are necessary.
- ◆ Having NuFact just several months after the main NEUTRINO conference is particularly stressful for NuFact attendance.
- ◆ Having NuFact every-other year in non-NEUTRINO years is a sensible solution.
