

Hardware Commissioning Day

Contribution ID: 6

Type: **not specified**

Cryo Performance & Operation

Thursday 19 March 2009 11:30 (30 minutes)

- Cryogenic calorimetric measurements: view for 2009, automation? Can we increase the accuracy?
- Operation overnight and over the weekend: any constraints? Presence of operators and experts in the CCC?
- Consolidation: impact on re-commissioning and operation (DSL, stand alone magnets, inner triplets, Y-lines, ...)

Presenter: CLAUDET, Serge

Session Classification: Session 3a: Cryogenics, DFBs and current leads
