

**Session Program**

**14-17 Oct 2009**

**V Workshop on Particle Correlations and  
Femtoscscopy**

***Recent results from SPS and RHIC***

CERN, TH Auditorium

# Wednesday 14 October

09:00

## Recent results from SPS and RHIC

**Session** | **Location:** CERN, TH Auditorium | **Convener:** Prof. Sandra Padula

### 09:00–09:30 HBT systematics from AGS to LHC

**Speaker**

Simone Schuchmann

**Location**

CERN, TH Auditorium

### 09:30–10:00

## Recent femtoscopic results in Au+Au and p+p collisions from PHENIX at RHIC

**Speaker**

Tamas Csorgo

**Location**

CERN, TH Auditorium

### 10:00–10:30

## Two-pion Source Imaging with the STAR experiment

**Speaker**

Dr Michal Sumbera

**Location**

CERN, TH Auditorium

### 10:30–10:50

## coffee break

### 10:50–11:20

## NA49 Results on fluctuations

**Speaker**

Mr Dmytro Kresan

**Location**

CERN, TH Auditorium

### 11:20–11:50

## Fluctuations and correlations in NA61

**Speaker**

Marek Gazdzicki

**Location**

CERN, TH Auditorium

### 11:50–12:20

## Measurement of Azimuthal Anisotropy with the New Reaction Plane Detector in the PHENIX experiment

**Speaker**

Yoshimasa Ikeda

**Location**

CERN, TH Auditorium

### 12:20–12:50

## New Results from SPS and RHIC

12:50

**Speaker**

Alexei Chikanian

**Location**

CERN, TH Auditorium
