

Product Teams are responsible for delivering a tested and certified solution that meets some defined capability (i.e., a node type) and which may require the Product Team to maintain or integrate software components onto a defined common base environment (e.g. operating system).

The initial product groupings are:

Product Name (Lead Manager & Partner)	Software Components (Partners)	Allocated Node Type(s)	ETICS Configs	Savannah Task Tags
Authorization (Christoph Witzig, SWITCH)	Authz Service (SWITCH, HIP, INFN, NIKHEF) Shibboleth interoperability (SWITCH)	PAP PDP		
VO Management (Vincenzo Ciaschini, INFN)	VOMS (INFN) VOMSAdmin (INFN)	VOMS		
Security Infrastructure Product Team (John White, HIP)	Delegation Framework (CERN, HIP, STFC) Trustmanager (HIP) Util-Java (HIP) Hydra (HIP) DICOM (HIP) myProxy Integration (HIP) LCAS/LCMAPS (NIKHEF) glExec (NIKHEF) SCAS (NIKHEF) Gridsite (STFC)	Hydra		
Information Systems (Laurence Field, CERN)	BDII (CERN) GLUE Schema (CERN)	BDII		
Compute Element (Massimo Sgaravatto, INFN)	CREAM (INFN) CEMon (INFN) BLAH (INFN) WMS (INFN, ED)	CREAM WMS		
Logging & Bookkeeping (Ales Krenek, CESNET)	Proxy and attribute certificate renewal (CESNET) Logging & Bookkeeping (CESNET) Gsoap-plugin (CESNET)	LB		
Data Management (Ákos Frohner, CERN)	CGSI_gSOAP (CERN) DPM (CERN) GFAL /lcg_util (CERN) LFC (CERN) FTS (CERN)	FTS (various) DPM (various) LFC		
Integrated Clients (SA3, CERN)	Proxy Renewal (Elisa @ ???) GSI-SSH (External - TBC)	UI WN VO Box		
Torque (SA3, NIKHEF)		Torque		
LSF (SAn, ???)		LSF		
Condor (SAn, PIC)		Condor		
SGE (SAn, CESGA)		SGE		
MPI (SAn, CERN)	Work with MPI-WG to find a new group to take this on.	GLITE-MPI		

Comment [J1]: ETICS configurations that the product team is responsible for maintaining using defined guidelines.

Comment [J2]: These are the task tags (e.g. LFC, DPM, AS) that the product team is responsible for.

To be assigned:

- dCache (External)
- AMGA (CERN)
