## MEMORANDUM

To : See distribution list

Cc : *N. Bellegarde / EN-EL – M. Bernardini, K. Foraz / EN-ACE*

From : J.C. Guillaume, S. Machado, D. Ricci/ EN-EL

**Subject : Cabling activities (DC, fibre) and electrical installation works to be scheduled during EYETS 2016-2017**

---

Some of final cabling requests (DIC, DIF)\* and electrical installation works (ARF)\* expected during the EYETS 2016-2017 have been already communicated to us through the Projects (i.e. LIU) or directly by your Project Manager.

For the **other works** to be scheduled during this period and **for which no technical information has been sent to us**, we ask you to announce them through PLAN – for those which are not already declared - and to send us the following information:

1. A first version of the DIC ('Demandes d'Installation de Cables') or the DIF ('Demandes d'Installation de Fibres'), specifying your needs in terms of cables (type and length) and in terms of connectors (type and quantity). These documents should be provided to the persons mentioned below by the **15.07.2016** at the latest. After this date, we will not be able to assure the provisioning of the material, given the stock availability and the long procurement time (3 to 6 months for certain cables or optical fibre types).

The final DIC or DIF, should be transmitted at latest by the **15.09.2016**, with the necessary documents for the realization of the works (plans or sketches of the installation, rack layouts, etc).

2. For the electrical installation works, a new procedure was created, the form ARF (Activity Request Form for electrical distribution) should be filled in and transmitted to the persons mentioned below in § c) by the **15.07.2016** in the aim of starting the studies and preparing the technical files.
