

Session Program

21-25 Sept 2009

**European Pulsed Power Conference 2009
<p> Incorporating the CERN Klystron Modulator Workshop**

SESSION 4 : Pulsed Power Technology (II)

CERN, 503/1-001 - Council Chamber

Wednesday 23 September

13:30

SESSION 4 : Pulsed Power Technology (II)

Session | Location: CERN, 503/1-001 - Council Chamber

13:30-13:50

4.1 - A Compact High Power Microwave (HPM) Source

13:50-14:10

4.2 - Theoretical Design and Particle Simulation of a Novel Compact P-Band Magnetically Insulated Transmission Line Oscillator

14:10-14:30

4.3 - High Voltage Subnanosecond Pulse Former Based On High Performance Energy Compression Unit With Low Impedance Forming Line

14:30
