

6th HL-LHC Collaboration Meeting

Tuesday, 15 November 2016

Joint Session 15/11 AM: WP5/7/8/10/13/14 - Heliopolis (09:00 - 10:40)

time	[id] title	presenter
09:00	[71] Crab cavity failures with 2 CCs, increased voltage and impact on availability - gain in luminosity and required crab cavity SYSTEM availability	VALETTE, Matthieu
09:20	[72] CC failure modes and mitigation	SJOBAEK, Kyrre Ness
09:40	[74] Energy deposition and thermo-mechanical studies for IR6 protection devices and downstream magnets/septa	LECHNER, Anton
10:00	[75] Energy deposition and thermo-mechanical studies for the LHC dump	FRANKL, Matthias Immanuel
10:20	[99] Simulations of ion losses around IR2 with TCLD collimators	BAHAMONDE CASTRO, Cristina
