

# 6th HL-LHC Collaboration Meeting

## Tuesday, 15 November 2016

**Joint Session 15/11 PM: WP7/9/10 - Louxor (16:00 - 17:20)**

time	[id] title	presenter
16:00	[73] Magnet component damage due to beam impact - first results and status	WOLLMANN, Daniel
16:20	[50] Ideas for the future Beam Interlock System	UYTHOVEN, Jan
16:40	[76] Expected energy deposition in D1, triplet and experiments due to showers from beam impact on TCT for different future materials	TSINGANIS, Andrea
17:00	[51] Luminosity measurement with BRANs at HL-LHC	JAKOBSEN, Sune
