

# 6th HL-LHC Collaboration Meeting

## Tuesday, 15 November 2016

### Joint Session 15/11 PM: WP2/5/13 - Louxor (13:40 - 15:40)

| time  | [id] title   | presenter              |
|-------|--|------------------------|
| 13:40 | [52] Simulations and measurements of halo excitations at the LHC               | GARCIA MORALES, Hector |
| 14:00 | [54] Effects on core from hollow e-lenses                                      | FITTERER, Miriam       |
| 14:20 | [53] Halo diagnostics using coronagraph  | TRAD, Georges          |
| 14:40 | [44] Status of wire-in-jaw collimator and e-lens studies for BBLR compensation | ROSSI, Adriana         |
| 15:00 | [45] BBLR experimental plan  | PAPAPHILIPPOU, Yannis  |
| 15:20 | [106] Status of crystal collimation studies at the LHC                         | MIRARCHI, Daniele      |
