Closed Agenda

Discussion issues:

- Recommendations for IUPAP conference sponsorship in 2017:
 - Lepton Photon
 - IPAC
 - EPS-HEP
- Location of future conferences:
 - Lepton Photon 2019 (Toronto)
 - ICHEP 2020 (Edinburgh, Prague)
- Follow-up on the ranking of Large Collaborations
 - Contact with other Commissions: C4 and C12, central IUPAP
 - Active discussions with: Duncan Ross (TES Global), Yves Sirois (EPS-HEP), John Ellis (CERN)

Closed Agenda

Discussion issues:

- Future of Lepton Photon conference, new ideas to increase participation :
 - Include a “light” parallel session programme (theory, outreach, spin-off).
More participation of young researchers
 - It should complements other conferences/avoid overlaps with: EPS-HEP, ICHEP, DPF, ICFA Seminar, etc..
 - Preserve the “spirit of Lepton Photon”
