Dubna, September 19 – 24, 2016

Alexander Mikhailovich Baldin

February 26, 1926 - April 29, 2001

The first 1969 Dubna Seminar

- ◆ *The first 1969 Dubna Seminar of this series was devoted to study of vector mesons and has included a considerable number of reports on development of gauge field theory*
- ◆ *Among the participants there were*
***N.N. Bogoliubov, J. Bjorken, B. Zumino,
V.F. Markov, S. Ting, L.D. Faddeev***
and others who made an essential contribution to this field

Dubna Seminars 1969 – 2016

biennial

- ◆ *the subsequent seminars of this series were devoted to the physics of strong interactions, multiparticle production, relativistic nuclear physics, quantum chromodynamics, cumulative meson production, structure functions, ...*
- ◆ *theoretical studies and ideas discussed at the Seminar in the early seventies later on became the main trends in the experimental program at the Synchrophasotron and Nuclotron at JINR.*

Dubna Seminars 1969 - 2014

- ◆ *Typical scale of the Seminars*
 - *around two hundred participants from ~ 20 countries, and more than 120 reports*
- ◆ *The Proceedings of the ISHEPP VI - XXII comprise reports on hot problems of relativistic nuclear physics, perspectives and statuses of experiments which are aimed to investigate relativistic nuclear collisions including polarization phenomena*

XXII International Baldin Seminar

- Statistics:
 - 217 participants from 17 countries (*young scientists ~ 22%*)
 - 40 women
 - 160 speakers from Scientific Centers (CERN, GSI, JLAB, BNL, JINR, COSY, FNAL, JPARC,...)
 - 31 women
- Proceedings:
 - <http://pos.sissa.it/cgi-bin/reader/conf.cgi?confid=225>
 - *115 talks*

XXIII International Baldin Seminar

Dubna, September 19 – 24, 2016

- **~250 participants are expected**

*registered more than 130 participants now;
dead line for registration: 31 August 2016*

- **~150 reports are supposed** *already accepted > 110*

- **conference fee - 350 Euro**

*it covers transfer from airports to Dubna and back,
social program, refreshments during the breaks,
the welcome party, banquet
and publishing of the Proceedings*

- **limited support for young scientists**

- free accommodation

XXIII International Baldin Seminar

The Organizing Committee:

- *appreciates IUPAP for the conference support;*
- *requests financial support for C-class conferences, which can help to attract young scientists, especially from developing countries;*
- *expresses confidence that it will increase interests to the C-class conferences in the world.*

**Thank you
for the attention**
