- Host: Institute of High Energy Physics, Chinese Academy of Sciences

Basic Information

- The Technology and Instrumentation in Particle Physics 2017 (TIPP2017) conference will be held in Beijing, the capital of China, from May 22-26. TIPP2017 will be the fourth in this series of international conferences on detectors and instrumentation, held under the auspices of the International Union of Pure and Applied Physics (IUPAP). The TIPP conference series, a science-driven cross-disciplinary conference, started in Tsukuba, Japan in 2009 (TIPP 2009), with the second conference held in Chicago in 2011 (TIPP 2011), and the third in Amsterdam in 2014 (TIPP2014). The conference aims to provide a stimulating atmosphere for scientists and engineers from around the world to discuss the latest developments in the field. The program focus is on all areas of detector development and instrumentation in particle physics, astro-particle physics and closely related fields, in particular:
 - Accelerator-based high energy physics
 - Non-accelerator particle physics and particle astrophysics
 - Nuclear physics
 - Experiments with synchrotron radiation and neutrons
 - Instrumentation and monitoring of particle and photon beams
 - Applications in photon science, biology, medicine, and engineering
- **5 days Program**
 - 2 half day plenary sessions for invited talks
 - 5~6 Parallel Sessions for contributed orals
 - Poster sessions
 - Half days excursion
