

FCC Week 2017

Thursday, 1 June 2017

Infrastructure & operation: Review: Civil engineering, electricity, ventilation, logistics, transport - "Bellevue" (08:30 - 10:00)

-Conveners: Christian Prasse

time	[id] title	presenter
08:30	[105] Civil engineering optimisation and design development	STANYARD, Joanna Louise
08:50	[106] Supply and distribution of electrical energy	BOZZINI, Davide
09:15	[107] A ventilation system for the FCC	PEON, Guillermo
09:35	[108] Cryomagnet logistics and transport	NETTSTRÄTER, Andreas

Infrastructure & operation: Cryogenics - "Bellevue" (13:30 - 15:00)

-Conveners: Dimitri Delikaris

time	[id] title	presenter
13:30	[101] Towards a conceptual design for FCC cryogenics	TAVIAN, Laurent Jean
14:00	[102] Cryogenic refrigeration with neon-helium mixtures for the FCC-hh	KLOEPPEL, Steffen
14:20	[103] Technical specifications for industry studies on the FCC cryogenic system	MILLET, Francois
14:40	[104] Cryogenic distribution for FCC-hh	DUDA, Pawel

Infrastructure & operation: Review: Operation, reliability, safety - "Tiergarten I-II-III" (15:30 - 17:00)

-Conveners: Lluís Secundino Miralles Verge

time	[id] title	presenter
15:30	[109] FCC-hh operation schedule and turn-around cycle	NIEMI, Arto
15:50	[110] FCC availability and integrated luminosity	APOLLONIO, Andrea
16:15	[111] FCC safety strategy for the CDR	OTTO, Thomas
16:40	[112] Radioprotection matters	WIDORSKI, Markus
