

Session Program

25 April 2009

LHeC meeting

LHeC Physics session I: Joint session on QCD, electroweak and new physics at large scales

Universidad Autonoma de Madrid, Sem 401 Modulo C-IX

Saturday 25 April

10:00

LHeC Physics session I: Joint session on QCD, electroweak and new physics at large scales

Session | **Location:** Universidad Autonoma de Madrid, Sem 401 Modulo C-IX

10:00-10:30

Expected NC and CC data at the LHeC and PDF extractions

Speaker

Max Klein

10:30-11:00

PDF fits of LHeC pseudodata (TBC)

Speaker

Claire Gwenlan

11:00-11:30

Charm, beauty and top production at LHeC (using RAPGAP MC predictions)

Speaker

Olaf Behnke

11:30-11:50

Coffee break

11:50-12:20

Higgs production at the LHeC

Speaker

Uta Klein

12:20-12:50

Higgs production at the LHeC

Speaker

Masaki Ishitsuka

12:50-13:30

Time for further talk contributions and discussions

13:30
