

WG 11 Detector Design

Mandate :

Propose hardware solutions for potential TLEP/FCCee (sub-) detectors, to match the performance requirements from the studies from the other physics working groups

Various discussions in the past and presentations to FCCee physics meetings

https://indico.cern.ch/event/526559/contributions/2165368/attachments/1272023/1885679/Det_Req.pdf

Workshop on November 23

WG11 Monthly meetings

- Invite a key-note speaker every meeting on a specific technology [This time Gabriella]
- overview from main Detectors conferences (Vienna, Elba, IEEE, TIPP, VERTEX.....)
- Make progress on understanding the detector design
