

SOFTWARE PROCESS

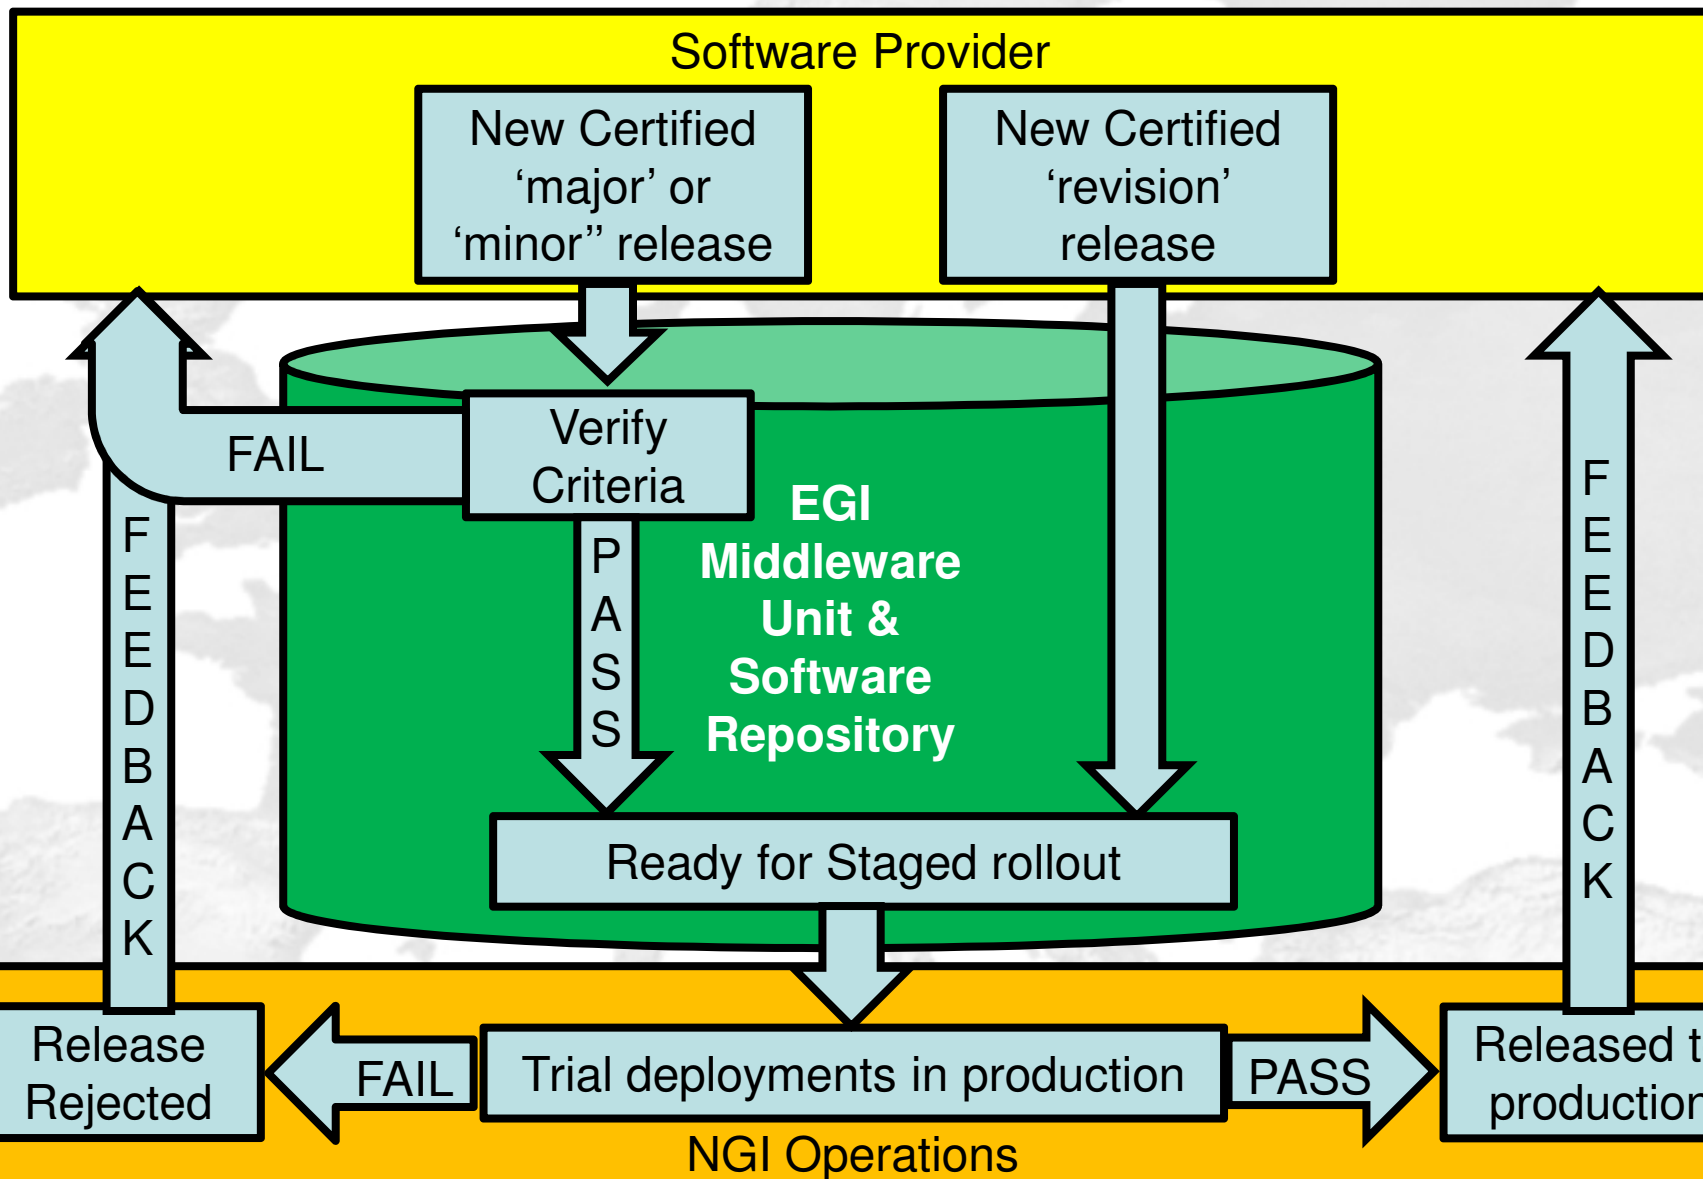

Project Structure

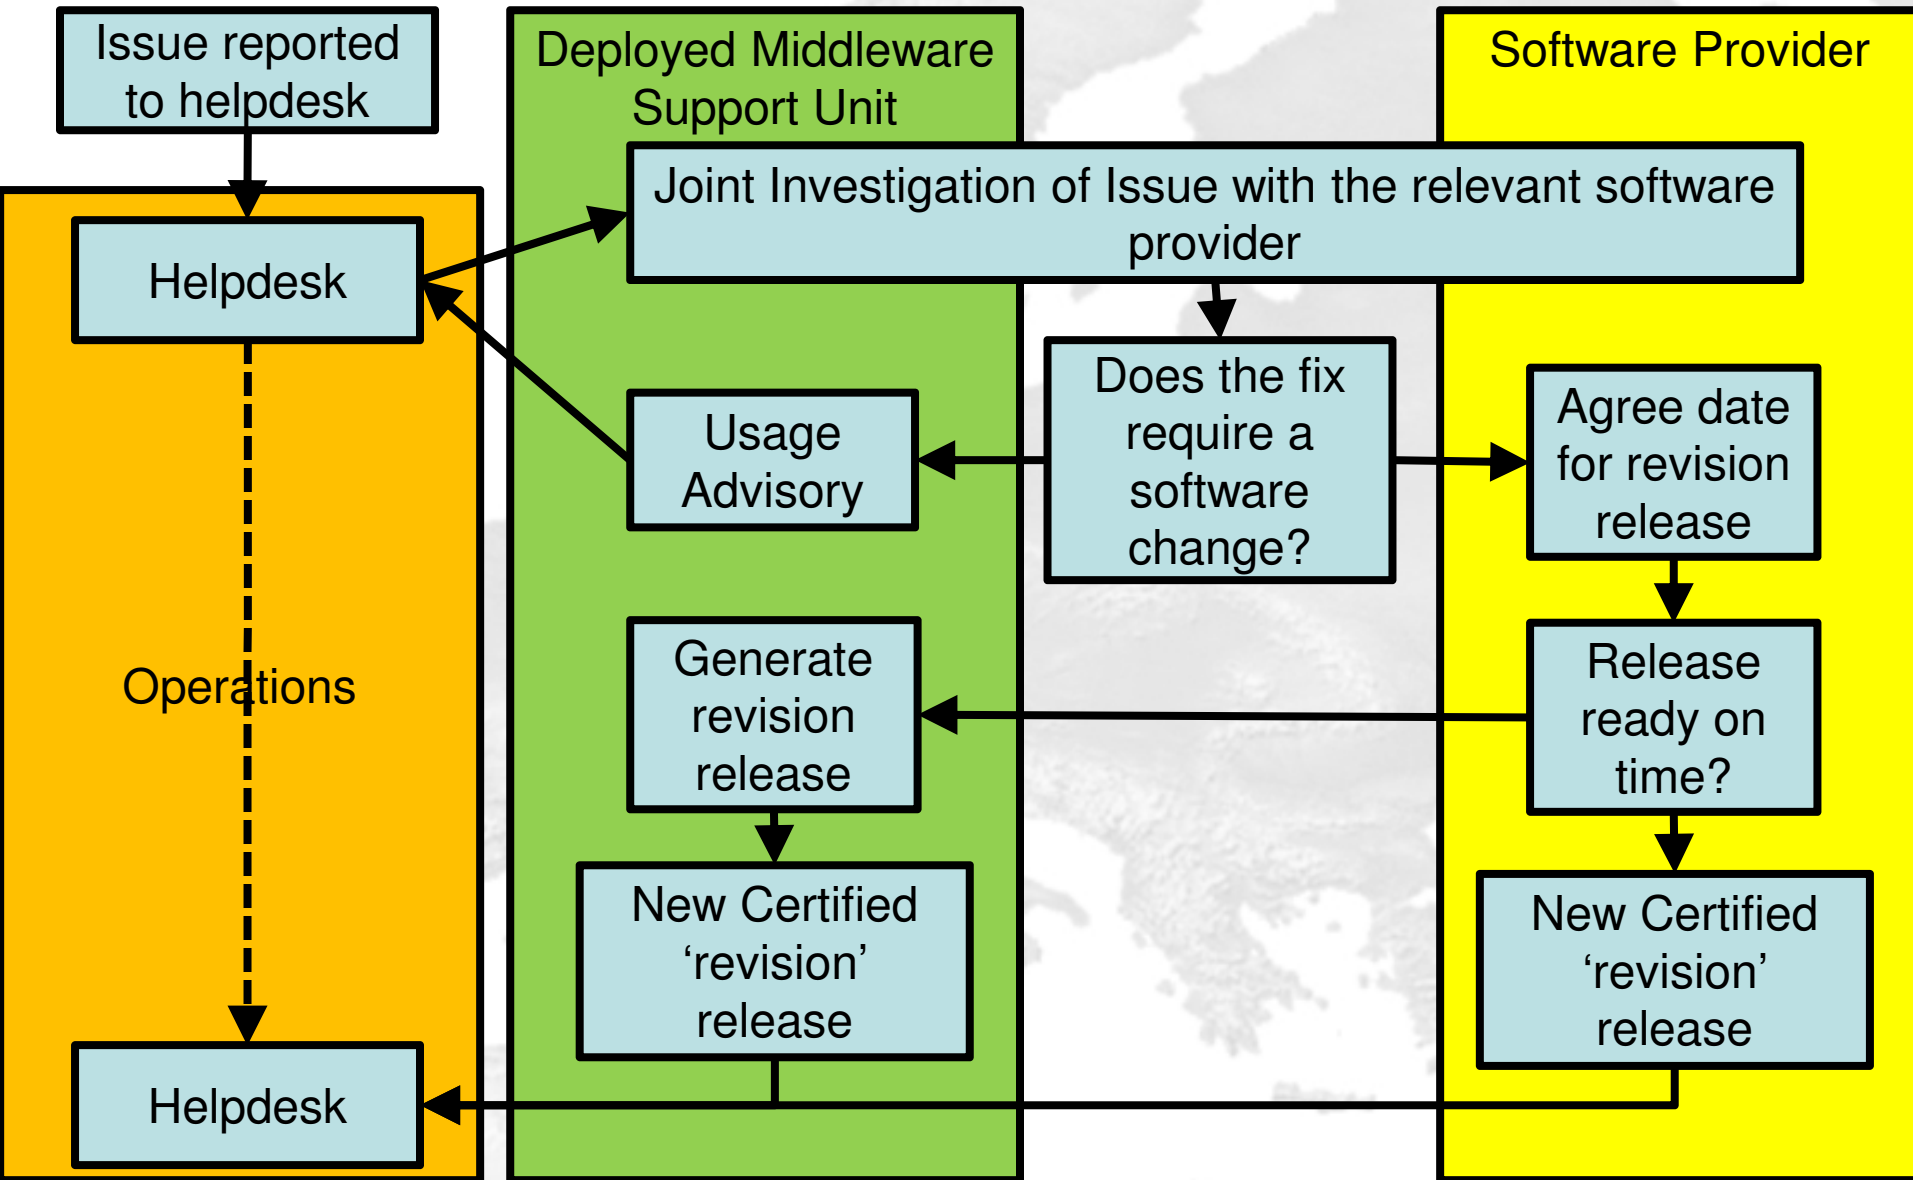

EGI Software Infrastructure

Release Workflow

Critical Software Issues

Software Provider SLAs

- EGI agrees to:
 - Communicate issues, requirements, assessment criteria & deployment environments.
 - Involve the software provider in triage issues

Software Provider agrees to...

- Responsive Technical and Managerial contacts
- Security contacts & response
- Contribute source & binary packages as requested
- Issue tracker, ideally integrated into GGUS
- Defined response to issues through a support team
- Provide a regular roadmap with new features and backwards compatibility
- Have a documented test & release plan
