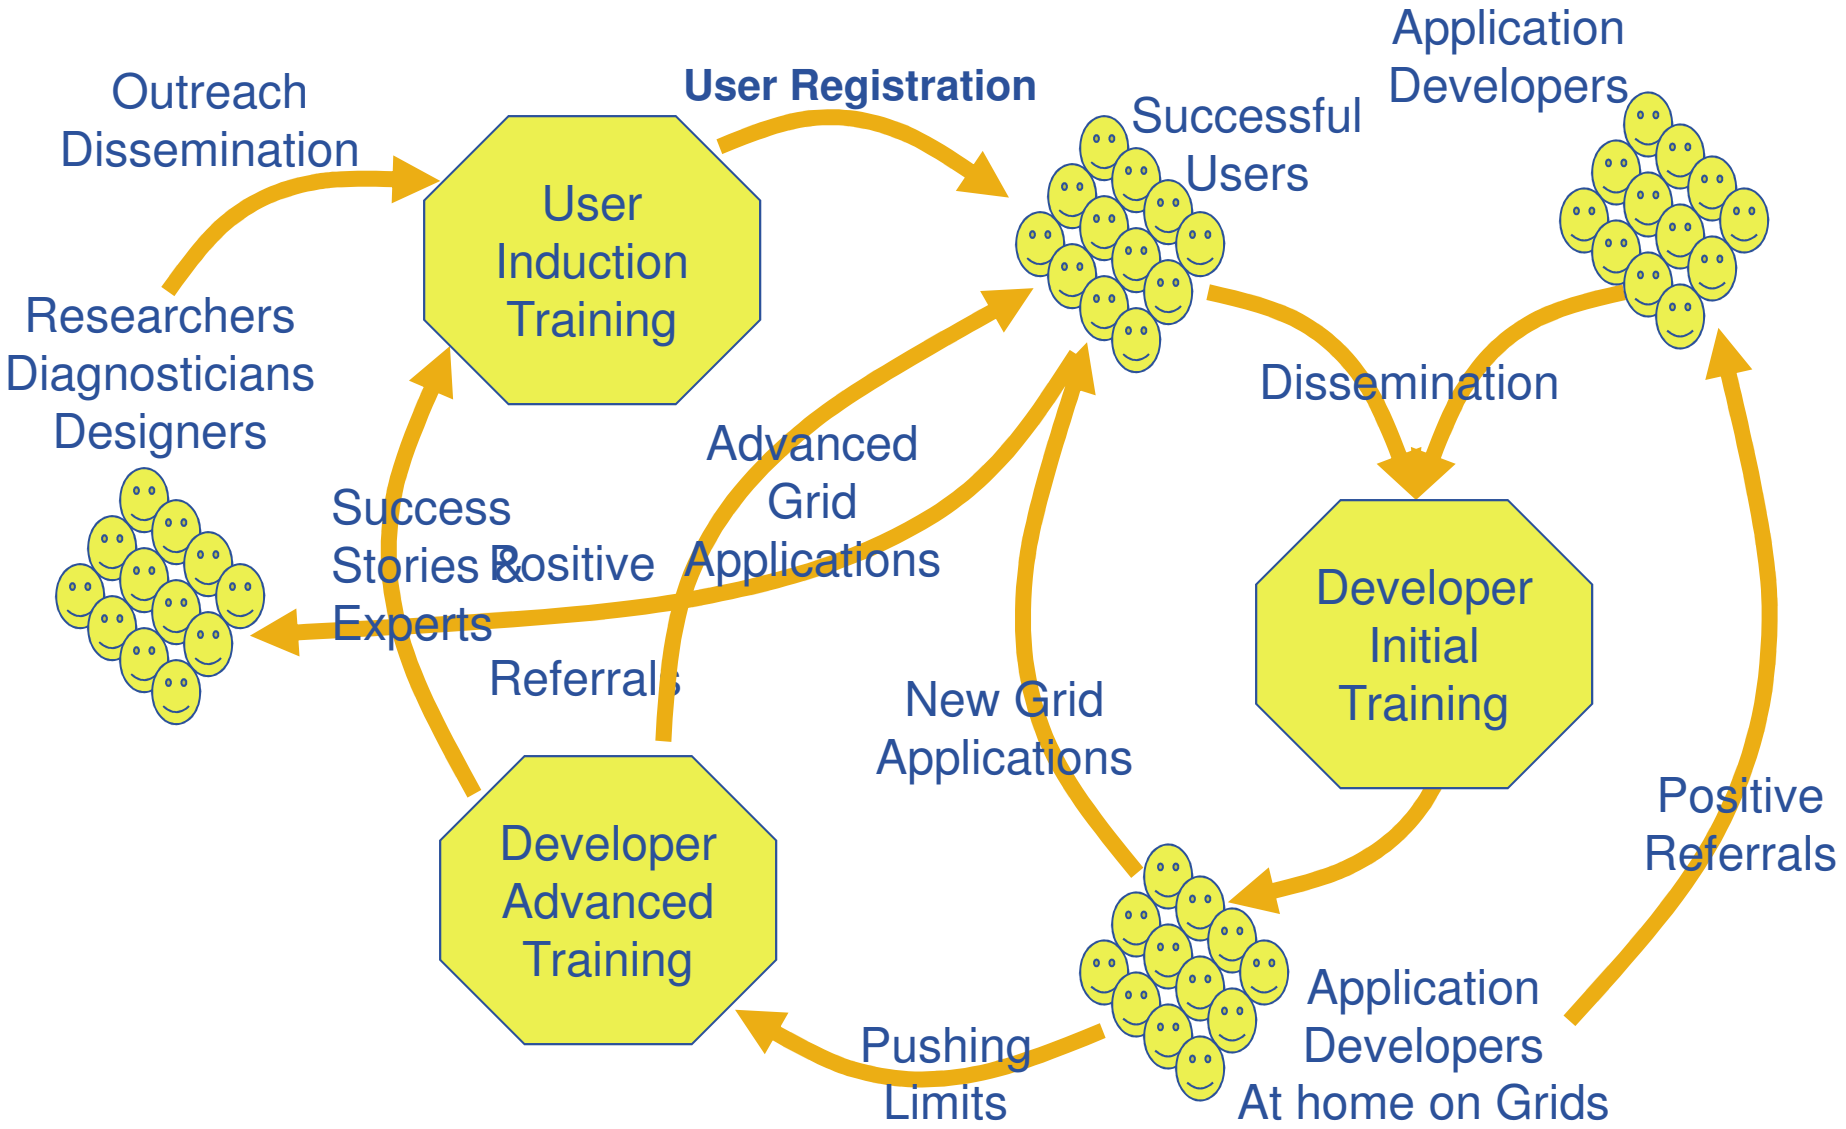
Trainers power Virtuous Cycles



Looking Ahead

- **Training will not be structured like EGEE**
  - Federated Infrastructure
- **Training will still be required:**
  - System operators (Operation centres)
  - Application developers (developing programs using infrastructure)
  - Users (accessing services)

Looking Ahead

- **Trainers will continue to need:**
  - Training (particularly new trainers)
  - Dissemination support
  - Shared experience of system changes
  - Passing info onto communities
    - Local
    - Across VOs
  - Support services
    - Infrastructure for Training
      - *Students need "easy access"*
    - Training Material

Role of Central (EGI.eu)

- **1FTE**
- **Coordination of NGI efforts**
- **Training Material**
  - Gathering technical information
  - Create content
- **Support central services**
  - Material repositry
  - Online resources
- **No Support for t-Infrastructure**

Role of National/Regional (NGIs)

- **Material Creation, live or broadcast events, provision of web based materials**
- **Maintain local repositories, e-Learning**
- **Support regional t-Infrastructure**
  - Coordination & interoperation
  - Operations at site level

Issues to be addressed

- **Sustainability**
  - NGIs self-sufficient
  - Increase number of Trainers
- **Scalability**
  - Large increase users -> Strain on resources

EGEE'09 is underway! Bob Jones is calling for more accredited trainers and for entries to the application database appdb.eu-egee.org #egee
about 6 hours ago from web
been setting up the EGEE booth, a few items still gone astray somewhere but they'll turn up. Amazing thunderstorm outside! #egee
about 18 hours ago from TweetDeck
lots of folks arriving for EGEE09, quite a buzz at the Barcelo Sants hotel already and on the blog www.gridcast.org #egee
about 21 hours ago from web
Gearing up for EGEE'09! For the inside info on what to see and
Name EGEE
Location Switzerland

Distribution of accredited trainers

Is the count low for your country?
Are ***your*** trainers accredited?
http://training.eu-egee.org/index.php?id=238
