

Session Program

21-25 Sept 2009

EGEE'09 - Uniting our strengths to realise a sustainable European grid

Astronomy and Astrophysics Applications in Grids

Hotel Barcelo Sants
Barcelona

Thursday 24 September

11:00

Astronomy and Astrophysics Applications in Grids

Session | **Location:** Hotel Barcelo Sants, Sant Gervasi, Barcelona

11:00-11:15

Astronomical GRID applications at the European Space Astronomy Centre

Speaker

Christophe Arviset

11:15-11:30

Integration of Astro-WISE with Grid storage

Speaker

Fokke Dijkstra

11:30-11:45

Constraints on primordial non-Gaussianity using Planck simulated data

Speaker

Marcos Lopez Caniego

11:45-12:00

Experiences from the migration of the MAGIC Datacenter to a Grid infrastructure

Speaker

Roger Firpo Curcoll

12:00-12:15

GRID infrastructure for astrophysical applications in Lithuania

Speaker

Prof. Grazina Tautvaisiene

12:15-12:30

Former and future applications from the Astronomical Institute of the Slovak Academy of Sciences

Speaker

Prof. Luboš Neslušan

12:30-12:45

SCOPE and Astrophysical Applications

Speaker

Dr Massimo Brescia

12:45-13:00

General Discussion on A&A Applications in EGEE

13:00
