Measurement of cross sections and couplings of the Higgs Boson in bosonic decay channels with the ATLAS detector

Wednesday 23 August 2017 16:30 (30 minutes)

After the discovery of the Higgs boson, the measurement of its coupling properties are of particular importance. In this talk measurement of the cross sections and couplings of the Higgs boson in bosonic decay channels with the ATLAS detector are presented.

Topic:

Topic: High Energy Particle Physics

Summary

Author: BELYAEV, Nikita

Presenter: BELYAEV, Nikita

Session Classification: Parallel session

Track Classification: Mini-Workshop on Latest Results and New Physics in the Higgs Sector
