## 6th International Conference on New Frontiers in Physics (ICNFP2017)

Contribution ID: 1286

Type: Talk

## **Counting Unruh particles**

Tuesday 22 August 2017 16:30 (30 minutes)

We discuss the question of how many Unruh particles can be found in a finite volume.

## **Topic:**

Topic: Quantum Physics, Quantum Optics and Quantum Information

## Summary

Author: Prof. DRAGAN, Andrzej (University of Warsaw)

Co-author: DRAGAN, Andrzej

Presenter: Prof. DRAGAN, Andrzej (University of Warsaw)

Session Classification: Workshop on continuous variables and quantum information

Track Classification: Workshop on Cont. Variables and Rel. Quantum Information
