Azimutal angular correlations in high energy processes in QCD

Tuesday 22 August 2017 17:30 (30 minutes)

We study azimuthal angular correlations among final state particles produced in high energy processes in QCD and show that these correlations are a sensitive probe of dynamics of QCD at small x.

Topic:

Topic: High Energy Particle Physics

Summary

Primary author: JALILIAN-MARIAN, Jamal (Baruch College/Ecole Polytechnique)

Presenter: JALILIAN-MARIAN, Jamal (Baruch College/Ecole Polytechnique)

Session Classification: A Particle Physics

Track Classification: Mini-Workshop on Latest Results and New Physics in the Higgs Sector
