

6th International Conference on New Frontiers in Physics (ICNFP2017)

Thursday, 24 August 2017

Workshop on Physics at FAIR-NICA-SPS-BES/RHIC: Session 1 - Room 3 (08:30 - 10:30)

-Conveners: Alexander Sorin

time	[id] title	presenter
09:30	[1124] Three-fluid Hydrodynamics-based Event Simulator Extended by UrQMD final State interactions (THESEUS) for FAIR-NICA-SPS-BES/RHIC energies	IVANOV, Yu. B.
10:00	[1042] Two-particle correlations using THERMINATOR model for BES program	Dr ZBROSZCZYK, Hanna

Workshop on Physics at FAIR-NICA-SPS-BES/RHIC: Session 2 - Room 3 (11:00 - 13:30)

-Conveners: Alexander Sorin

time	[id] title	presenter
11:00	[1300] Separate freeze-out of strange particles and the quark-hadron phase transition	IVANYTSKYI, Oleksii
11:30	[1301] Probing the tricritical endpoint of QCD phase diagram at NICA-FAIR energies	BUGAEV, Kyrill
12:00	[1091] New Baryonic and Mesonic Observables from NA61/SHINE	Dr MARCINEK, Antoni
12:30	[1037] Flow at SIS energies - overview of SIS18 results and prospect for SIS100	Dr KUGLER, Andrej
13:00	[1180] The STAR detector upgrade and future plan	Dr YANG, Chi

Friday, 25 August 2017

Workshop on Physics at FAIR-NICA-SPS-BES/RHIC - Room 3 (08:30 - 10:30)

-Conveners: Peter Senger

time	[id] title	presenter
08:30	[1362] BM@N experiment for studies of Baryonic Matter at the Nuclotron	KAPISHIN, Mikhail
09:00	[1361] Physics with the CBM experiment	Dr FRIESE, Volker
09:30	[1093] Event topology reconstruction in the CBM experiment at FAIR	Prof. KISEL, Ivan
10:00	[1170] Multi Purpose Detector at NICA: Status and Prospects	Prof. KEKELIDZE, Vladimir
