

6th International Conference on New Frontiers in Physics (ICNFP2017)

Thursday, 24 August 2017

D Astroparticle, Cosmology, d Gravity, Math Phys - Room 1 (Auditorium, Main Session) (13:00 - 13:30)

time	[id] title	presenter
13:00	[966] The Pierre Auger Observatory: latest results and future perspectives	BUSCEMI, Mario

Friday, 25 August 2017

D Astroparticle, Cosmology, d Gravity, Math Phys - Room 1 (Auditorium, Main Session) (08:30 - 10:30)

time	[id] title	presenter
08:30	[1442] Resolving the singularities in General Relativity	MUKHANOV, Slava
09:00	[1175] Core-collapse supernovae explored by neutrino transfer and nuclear data	SUMIYOSHI, Kosuke
09:30	[1138] Overview of Dark Matter Direct Searches	FIORILLO, Giuliana
10:00	[939] Indirect dark-matter searches with gamma-rays experiments : status and future plans from 300 KeV to 100 TeV	MORSELLI, Aldo

D Astroparticle, Cosmology, d Gravity, Math Phys - Room 1 (Auditorium, Main Session) (12:00 - 12:30)

time	[id] title	presenter
12:00	[1266] Noncommutative geometry at the new frontiers of theoretical physics	ECKSTEIN, Michal

Saturday, 26 August 2017

D Astroparticle, Cosmology, d Gravity, Math Phys - Room 1 (Auditorium, Main Session) (11:00 - 12:00)

-Conveners: Slava Mukhanov

time	[id] title	presenter
11:00	[1554] LIGO/VIRGO Overview talk	ANDREA PRODI, Giovanni
11:30	[1511] Status of Advanced Virgo	Dr ALLOCCA, Annalisa
