

# Pourya Vakilipourtakalou

I was born in Iran 21 years ago. I went to physics and mathematics highschool and then I was accepted in University of Tehran (UT) to continue my study in pure Physics.

Now I'm a 3rd year student of Bachelor.

I also was the captain of Iran National Team in International Physics Tournament (IPT) in Poland 2015.

As my daily hobby I play a traditional Iranian musical instrument named ""Tar"" and among sports I like mostly Judo.
