

# Sam Abernethy

Sam Abernethy is a Mathematics and Physics major studying at Queen's University in Kingston, Canada. Originally from Halifax, Canada, Sam enjoys football, biking, hiking, and any outdoor activities. This summer, Sam worked with the Beams Department analyzing the performance of the Multi-Turn Extraction technique in beam transfer from the PS to the SPS. After finishing his undergraduate degree next year, he intends to continue on with graduate studies in a closely related field.
