

Session Program

7-8 Nov 2016

International
Cancer
Expert Corps

Partnering to transform global cancer care

CERN-hosted Workshop on Design Characteristics of a Novel Linear Accelerator for Challenging Environments - Improving global access to radiation therapy

IX. What Will it Take to Make it Happen?: Moderator: Bruce Curran

CERN, 31/3-004 - IT Amphitheatre
Route de Meyrin 385, Geneva, Switzerland

Tuesday 8 November

10:20

IX. What Will it Take to Make it Happen?: Moderator: Bruce Curran

Session | **Location:** CERN, 31/3-004 - IT Amphitheatre, Route de Meyrin 385, Geneva, Switzerland

10:25-10:40

IX. A. How do we translate design characteristics into a working machine (From machine shop to the clinic)?

Speaker

Jacques Bernier

10:40-10:55

IX. B. Challenges in introducing new technology in the developing world

Speaker

Andras Fehervary

10:55-11:10

IX. C. Entrepreneurial strategies to make it happen

Speaker

Ajit Singh

11:10-11:25

IX. D. Determining the cost of new technologies such as the linear accelerator under consideration

Speaker

Yolande Lievens

11:25
