

## **Session Program**

**7-9 Dec 2016**

# **ISOLDE Workshop and Users meeting 2016**

## ***Nuclear Structure 1***

CERN, 503/1-001 - Council Chamber

Wednesday 7 December

09:00

Nuclear Structure 1

Session | Location: CERN, 503/1-001 - Council Chamber | Convener: Gerda Neyens

09:00-09:10 Welcome

Speaker  
Maria Jose Garcia Borge

09:10-09:40 Shapes for a precise description of nuclear spectroscopy

Speaker  
Tomás Rodríguez

09:40-10:10 Laser Spectroscopy of Nobelium Isotopes at GSI

Speaker  
Michael Block

10:10-10:30  
Recent technical developments and mass measurements above the potentially doubly-magic nuclide  $^{78}\text{Ni}$  at ISOLTRAP

Speaker  
Andree Welker

10:30-10:45  
Shape staggering, shape coexistence and beta-delayed fission in bismuth isotopes studied by in-source laser spectroscopy (IS608)

Speaker  
Anatoly Barzakh

10:45
