

**Session Program**

**7-9 Dec 2016**

**ISOLDE Workshop and Users meeting 2016**

***Solid State Physics***

CERN, 503/1-001 - Council Chamber

# Wednesday 7 December

11:15

## Solid State Physics

**Session** | **Location:** CERN, 503/1-001 - Council Chamber | **Convener:** Manfred Deicher

11:15–11:45 **Solid State Physics Program at ISOLDE**

**Speaker**

Dr Juliana Schell

11:45–12:15 **Solid State Challenges in Ferroelectrics**

**Speaker**

Doru Lupascu

12:15–12:30

**Lattice location of  $^{27}\text{Mg}$  in GaN: latest results using the emission channeling technique**

**Speaker**

Ulrich Wahl

12:30–12:45 **Potassium self-diffusion in a K-rich single-crystal alkali feldspar**

**Speaker**

Fabian Hergemoller

12:45–13:00 **Probing the local structure in Multiferroic  $\text{SmCrO}_3$**

**Speaker**

Goncalo De Pinho Oliveira

13:00
