

Session Program

7-9 Dec 2016

ISOLDE Workshop and Users meeting 2016

Light nuclei, Astrophysics & New Instruments

CERN, 503/1-001 - Council Chamber

Wednesday 7 December

16:20

Light nuclei, Astrophysics & New Instruments

Session | Location: CERN, 503/1-001 - Council Chamber | Convener: Joakim Cederkall

16:20-16:50 Light nuclei, new set-ups, persistent challenges

Speaker

Karsten Riisager

16:50-17:20 Perspectives for nuclear astrophysics with radioactive beams

Speaker

Anu Kankainen

17:20-17:40
7Be(n,a) AND 7Be(n,p) CROSS-SECTION SECTION MEASUREMENT FOR THE COSMOLOGICAL LITHIUM PROBLEM AT THE n_TOF FACILITY AT CERN

Speaker

Massimo Barbagallo

17:40-17:55
Spectroscopy of conversion electrons with LN2 cooled Si(Li) detector at the TATRA spectrometer

Speaker

Martin Venhart

17:55
