

Session Program

23-25 Jun 2009

ILC-CLIC LET Beam Dynamics Workshop
Integrated Studies and Dynamic Effects

CERN, 6/2-004

Thursday 25 June

09:00

Integrated Studies and Dynamic Effects

Session | Location: CERN, 6/2-004

09:00–09:20

On the description of ground motion

Speaker

Christophe Collette

09:20–09:40

CLIC Beam Instrumentation Challenges

Speaker

Thibaut Lefevre

09:40–10:00

RF stability issues in CLIC

Speaker

Daniel Schulte

10:30

10:00–10:30

Discussion on Future Plans and Collaborations
