

LHCb Computing Week: CWP Discussions

Call to Action wrt Analysis Preservation

Mike Sokoloff

May 17, 2017

Time to Contribute

Links to Community White Paper web pages include:

- The HEP Software Foundation (HSF) is preparing a **Community White Paper** (<http://hepsoftwarefoundation.org/activities/cwp.html>) which will provide a roadmap for HEP Software and Computing R&D for the 2020s. This will provide a context for the proposed HL-LHC S2I2.
- There is a web page (<http://hepsoftwarefoundation.org/cwp/cwp-working-groups.html>) with a list of **CWP working groups** and link to the relevant Google docs and Google groups.

CWP Working Groups relevant for today's discussion:

- **Data and Software Preservation WG** (also called Software Development, Deployment and Validation/Verification WG)
<https://docs.google.com/document/d/15trJhLKqb90cN55WIPfmdH8vX04g43hXGRvhDEu33ow/edit>
- **Data Analysis and Interpretation WG** https://docs.google.com/document/d/1QaX20F6WQ1wQT1x-5bRK0J2tybFqC_NPn6CF7g3yzqk/edit#heading=h.rlapshz6h3fp

Call to Action wrt Analysis Preservation/Data and Software Preservation

- **Contribute to the Google docs** linked at the HSF web site (<http://hepsoftwarefoundation.org/cwp/cwp-working-groups.html>)
- **Participate in upcoming workshops;**
 - 22-24 May, 2017 - HEP Analysis Ecosystem Retreat in Amsterdam, <https://indico.cern.ch/event/613842/>; Eduardo Rodrigues will be giving a talk there, **An overview of how LHCb performs physics analysis**; he requests comments from analysts about the various tool-kits they are using, and also what they would like.
 - 26-30 Jun, 2017 - HEP Software Foundation Workshop in Annecy, <https://indico.cern.ch/event/613093/>
- **Participate in Analysis Preservation discussion at 16:20 today** and use it as an opportunity to contribute ideas to the CWP WG docs. <https://indico.cern.ch/event/561981/timetable/>.
