

**Session Program**

**10-13 Oct 2016**

**Rencontres QGP France 2016**

***Theoretical developments***

Étretat, Dormy House  
Route du Havre, 76790 Étretat

# Wednesday 12 October

16:00

## Theoretical developments

**Session** | **Location:** Etretat, Dormy House, Route du Havre, 76790 Étretat

16:00–16:25

**Constraining the equation of state for dense matter through thermal emission of neutron stars**

16:25–16:50

**Fluctuations of the multiplicity of produced particles in onium-nucleus collisions**

**Speaker**

Stephane Munier

16:50–17:15

**First results about elliptic flow with a unified approach at RHIC energies**

**Speaker**

Gabriel Sophys

17:15–17:40

**Color-pictorial rules and anomalous dimension matrix**

**Speaker**

Florian Cougoulic

17:40
