The Mathematics and Statistics Institute (IME), Scientific and Technological Programme and Perspectives

Monday 23 January 2017 11:30 (30 minutes)

The Institute of Mathematics and Statistics, part of the University of Sao Paulo, is constituted of four departments: DCC (Department of Computer Science), MAE (Department of Statistics), MAP (Department of Applied Mathematics) and MAT (Department of Mathematics). It is an institution focused on researching, learning and teaching within the areas above. The IME was founded in 1970 and, since then, it has been getting prizes and considerable accreditation for both its undergraduate and graduate programs.

Presenter: Prof. JUNIOR, Barrera (Head of the Department of Computing Science at IME-USP)

Session Classification: Presentation of USP and of the Institutes and Schools that are organizing the School at USP
