## The Polytechnic School at USP, Scientific and Technological Programme and Perspectives

*Monday 23 January 2017 12:30 (30 minutes)*

The Polytechnic School at Sao Paulo was funded in 1893 and is part of USP since 1934. The school comprises 457 Professors, 4.500 graduate students and 2.500 post-graduates. The School is organized in 15 departments, performing high education and research activities with strong impact as well in the Industrial and Managerial sectors in Brazil. Today the School is a national reference and is considered the most complete Faculty of Engineering in Latin America. The Polytechnic School at USP has built a large network of connections with top Universities and Engineering Schools worldwide as well as with the Industrial world.

**Presenter:** Prof. SICHMAN, Jaime Simao (POLI-USP)

**Session Classification:** Presentation of USP and of the Institutes and Schools that are organizing the School at USP
