Future Main Directions in High Energy Physics

Tuesday 24 January 2017 11:45 (1h 15m)

The Introductory lecture on Particle Physics about the future perspectives for the next decades and especially beyond the High Luminosity LHC, will be presented by Prof. Ian Shipsey, Head of the Particle Physics at Oxford Physics Department.

Presentation of Prof. Ian Shipsey by Dr. Aurore Savoy-Navarro

A written version of this presentation can be found in:
