

4th Summer School on INtelligent signal processing for FrontIEr Research and Industry

Contribution ID: 29

Type: **not specified**

Introduction to advanced Filtering Techniques

Tuesday, 31 January 2017 09:00 (2 hours)

Prof. Barrera is the head of the Computing Science Department (DCC) at the Institute of Math and Statistics (IME-USP).

The lecture given in two parts, will focus on Non Linear Filtering: statistical design of lattice filters and applications. These lectures will be complemented by a Computer-aided Lab organized by Prof Barrera et al.

Presenter: Prof. BARRERA, Junior (Computing Science Department (DCC) Head, Institut of Mathematics and Statistics. IME, USP)

Session Classification: DATA FILTERING TECHNIQUES
