Loopedia, a Database for Loop Integrals

Tuesday 22 August 2017 14:25 (20 minutes)

Loopedia is a new database for bibliographic (and other) information on loop integrals. Its bibliometry is orthogonal to that of SPIRES or arXiv in the sense that it admits searching for graph-theoretical objects, e.g. a graph's topology. We hope it will in time be able to answer the query "Find all papers pertaining to graph X ."
