ROOT at the center of the future analysis ecosystem

Tuesday 22 August 2017 18:05 (20 minutes)

ROOT https://root.cern is evolving along several new paths. At the same time it is reconsidering existing parts. This presentation will try to predict where ROOT will be in three years from now: the main themes of development and where we are already now, the big open questions as well as some of the questions that we didn't even ask yet. The oral presentation will cover the new graphics and GUI system, the new personality of ROOT's programming interfaces, new analysis approaches, as well as a whole chapter on concurrency.
