**Date:** 17/01/2017, 12:24  
**To:** Mark Slater <mslater@cern.ch>

## 25th International Workshop on Deep–Inelastic Scattering and Related Topics

3–7 April 2017, Birmingham, UK

### Bulletin #1: January 2017

---

The 25th International Workshop on Deep–Inelastic Scattering and Related Topics will be held at Birmingham University, UK on 3–7 April, 2017. Registration, abstract submission and other details can be found via <http://www.dis17.org> or directly at <http://indico.cern.ch/e/DIS17>.

The meeting covers an eclectic mixture of material related to Quantum Chromodynamics and Deep Inelastic Scattering as well as a general survey of the hottest current topics in high energy physics. Much of the program is devoted to the most recent results from large experiments at BNL, CERN, DESY, FNAL, JLab, and KEK. The workshop consists of plenary and parallel sessions, the latter being organised into 7 working groups:

- WG1) Structure Functions and Parton Densities
- WG2) Low  $x$  and Diffractive Physics
- WG3) Higgs and BSM Physics in Hadron Collisions
- WG4) Hadronic and Electroweak Observables
- WG5) Physics with Heavy Flavours (charm, beauty and top)
- WG6) Spin and 3D Structure
- WG7) Future of DIS

### Important Dates

**31 January:** Deadline for Abstracts offering talks in the parallel sessions  
**28 February:** Deadline for Early registration fee

## Practical Information

The meeting is most easily reached from Birmingham International Airport (~10km), which has regular flights to many destinations in Europe and beyond. Various other airports, including London Heathrow and London Gatwick (LGW), are within 3 hours by public transport.

A range of hotels have been pre-booked for the meeting and can be booked via the registration page

If you require a visa to enter the UK, please register early and include your request in the registration form
