## **R measurement and QCD studies at BESIII**

*Wednesday 5 April 2017 09:20 (15 minutes)*

We report the status of R measurement in 2-4.6 GeV at BESIII, and some new results from QCD studies, including: proton form factor with ISR,  $\pi^+\pi^-$  cross section and pion form factor with ISR, new measurement of  $J/\psi$  parameters,  $e^+e^- \rightarrow K^+K^-$  cross sections in 2-3.08 GeV.
