

# Agenda for the CERN TPC workshop

Marco Zito

Sept 14 2016

# Workshop timeline

- The workshop will take place November 8 and 9
- We can assume that people will arrive the day before so that we can start in the morning
- And that some will leave in the afternoon so that we should stop around 16:00 the second day
- We should reserve time for discussion, informal discussion and next steps at the end
- In the following some ideas to focus the preparation of the agenda

# Agenda: schematic

- We can divide the agenda in sessions (1.5-2h) each with a set of 3-4 talks (or discussions)
- Nov 8: 9:30 – 12:30 (30 mn coffee break) 2 sessions 2.5h
- Nov 8: 14:00 – 18:00 (30 mn coffee break) 2 sessions 3.5h
- Nov 9: 9:30 – 12:30 (30 mn coffee break) 2 sessions 2.5h
- Nov 9: 14:00 – 16:00 1 session 2h
- Total: 7 sessions, 10.5h

# Agenda: topics-1

- 1) Introduction: welcome and goal of the workshop, CENF presentation, status of neutrino oscillation studies, neutrino cross-sections
- 2) LB projects: T2K and T2K-II, HK, DUNE
- 3) T2K near detector performance and limits, the T2K ND TPC
- 4) The T2K ND upgrade, TPC and items for R&D, active targets (WAGASCI)
- 5) HPTPC: as near detector for DUNE, R&D in progress,
- 6) Recent developments from RD51, ILC-TPC, MPGD facilities, CERN beam and test facilities

# Agenda: topics-2

- Other topics ?
- Reserve ~1h at the end of the second day for discussion on next steps, R&D, beam tests

# Other issues

- How to announce the workshop beyond T2K (DUNE, CERN, RD51 ...)
- Find and contact speakers
- Other practical issues ?
