## **Abstract**

The 2015 International Workshop on Polarized Sources, Targets & Polarimetry took place at the Ruhr-University Bochum on September 14th - 18th 2015.

The Workshop has been a tradition for more than 20 years, moving between Europe, USA and Japan. The XVIth International Workshop on Polarized Sources, Targets and Polarimetry (PSTP 2015) addresses the physics and technological challenges related to polarized gas/solid targets, polarized sources, polarimetry and their applications. A summary of the workshop will be presented.
