Measurement of cross sections and properties of the Higgs Boson using the ATLAS detector

Tuesday 18 April 2017 18:45 (15 minutes)

The final Run 1 and first Run 2 results on the measurement of the cross sections, couplings and properties of the Higgs boson with the ATLAS detector are presented.

Author: CLARK, Philip (University of Edinburgh (GB))

Presenter: CLARK, Philip (University of Edinburgh (GB))

Session Classification: Tuesday Afternoon

Track Classification: Higgs and the Standard Model
