

# 2017 IEEE Pulsed Power Conference

## Wednesday, 21 June 2017

### Oral session 14 - High-Current Accelerators - Session Chair: Frédéric Bayol - Stanmer (10:00 - 12:30)

time	[id] title	presenter
10:00	[256] Status of the 1st Radiographic Axis of the Epure Facility	GEORGES, Alain
10:15	[457] Investigations on Dual Pulse technologies for future upgrade of CEA flash X-rays LIA	Dr VERMARE, Christophe
10:30	[375] Scorpius: The development of a new multi-pulse radiographic system	CRAWFORD, Mark
10:45	[13] The MERLIN Induction Voltage Adder Radiographic Accelerator	Dr THOMAS, Ken
11:15	[128] Design of compact and repetitive pulsed e-beam source	Dr SONG, Fa-lun
11:30	[194] Generation of Intense Pulsed X-ray and Repetitive Pulsed X-rays	Dr YUAN, Jianqiang
11:45	[386] Analysis and improvement of a folded gigawatt intense electron-beam accelerators	YIN, Yi
12:00	[383] Multi-Pulse Diode-Isolated-Blumlein Induction-Cell Drivers	Dr ROSE, Chris
12:15	[408] Testing and Evaluation of High Voltage Diode Stacks for multi-pulse Linear Induction Accelerators	Dr DIGHE, Kalpak
