

Release Scheduling

Francesco Giacomini

JRA1/SA3 All Hands

Nicosia, 7 May 2009

- **The gLite roadmap (for JRA1 components) in terms of releases is expressed through tasks in the JRA1 Savannah workplan**
 - Overall workplan: JRA1 twiki → Workplan
 - Release schedule: JRA1 twiki → Release Schedule

- **A release task:**
 - Has “release” in the title (summary)
 - Usually depends on other tasks that describe the major enhancements for that release
 - The list of major enhancements appears also in the description
 - Depends on a patch that represents that release
 - Has a realistic estimate of the release date
 - end date is the time when the product leaves the cluster of competence/product team
