Programme website

The screenshot shows the homepage for the International Teacher Weeks Programme 2017. At the top, there is a blue header with a globe icon made of flags and the title "International Teacher Weeks Programme 2017". Below the header, the dates "6-19 August 2017" and "CERN Europe/Zurich timezone" are displayed, along with a search bar. A navigation menu on the left includes "Overview", "Timetable", and "Administrative Support". The main content area contains a description of the 2-week residential programme, contact information for Maureen Prola-Tessaur, and a link to the Indico event page. It also lists the Teacher Programme Manager (Jeff Wiener) and emergency contact information for the CERN fire brigade. A "Materials" section indicates that there are no materials yet. A "Please note" section at the bottom provides additional information about the programme and agenda.

This 2-week residential programme, which will take place for the first time in 2017, is open to high school science teachers from around the world who would like to update their knowledge of particle physics, its associated technologies, and related subjects in a group of science teachers of different nationalities.

The **International Teacher Weeks Programme 2017** will take place from 6 - 19 August 2017. Lectures, on-site visits, exhibitions, Q&A-sessions and hands-on workshops will introduce its participants into cutting-edge particle physics. We hope our participants will go back as ambassadors, who pass on the subject to our next generation of physicists, engineers, IT specialists and and and ...
