

12th Workshop on Electronics for LHC and future Experiments

Thursday, 28 September 2006

Parallel Session B7-DAQ session (10:55 - 13:00)

| time | [id] title | presenter |
|-------|---|--|
| 10:55 | [24] Production Test Rig for the ATLAS Level-1 Calorimeter Trigger Digital Processors | MAHOUT, Gilles |
| 11:20 | [27] The Hardware of the ATLAS Pixel Detector Control System | HENSS, Tobias |
| 11:40 | [62] Algorithms in the ROD DSP of the ATLAS hadronic Tile Calorimeter | SALVACHUA, Belen |
| 12:00 | [1] Low-power front-end for a Neutrino Underwater Telescope | LO PRESTI, Domenico |
| 12:20 | [65] New RPC front-end electronics for hades | GIL, Alejandro |
| 12:40 | [23] Alibava : A portable readout system for silicon microstrip sensors | MARCO-HERNÁNDEZ, Ricardo MARTÍ I GARCÍA, Salvador |
