

# 12th Workshop on Electronics for LHC and future Experiments

## Wednesday 27 September 2006

### Parallel Session A5-DAQ and Optical technology (14:15 - 15:55)

time	[id] title	presenter
14:15	[9] A multi-channel optical plug-in module for gigabit data reception	VICHOUDIS, Paschalis
14:40	[108] PCI Express Over Optical Links for Data Acquisition and Control	TRIOSSI, Andrea
15:05	[13] Status of the TTC upgrade	BARON, Sophie
15:30	[28] On the development of the final optical multiplexer board prototype for the TileCal experiment	GONZALEZ MILLAN, Vicente
